Limited Lifetime Warranty

At Barkman Furniture we take pride in building beautiful, quality products that will last for generations. We aim to ensure our customers are completely satisfied with their purchase. All of our products carry a Limited Lifetime Warranty for material and workmanship defects to the original purchaser or owner who has purchased the item from an authorized dealer. This Warranty is valid for as long as the original purchaser owns the item.

Limitation of Liability

Barkman Furniture's obligation and liability is limited to defects caused by our own defective materials or workmanship. This Warranty does not cover damages occurring from situations outside of Barkman Furniture's control such as: transportation from the retailer to the purchaser, vandalism, natural disasters, improper use, use beyond rated capacity, improper handling, storage, or installation, modifications, alterations, or improper care. Refer to our included Care Guide for proper cleaning and care instructions.

Claim Process

If an issue arises with your furniture, contact the Authorized Dealer you purchased your item from. The Authorized Dealer will contact us at Barkman Furniture to resolve the issue in a timely manner.

If you are unable to contact your Authorized Dealer, you may contact our office directly at sales@barkmanfurniture.com.

Please include a valid proof of purchase from the Authorized Dealer you purchased the item from, a photo of Barkman Furniture's label on the item, a detailed description and photos of the issue. We endeavor to resolve all concerns quickly, and will provide instructions for return or replacement upon approving your claim.

Care Guide

- Limit direct sunlight exposure as much as possible. Over-exposure to direct sunlight will cause any finish to fade over time.
- Excessive waxing can cause moisture from a beverage can or glass to leave a white milky ring on the surface of the wood.
- Do NOT use cleaners containing bleach, ammonia, or abrasives to avoid discoloration and scratches.
- Excessive exposure to smoke will cause the finish to yellow.
- Dyes and inks may discolor the finish.
- Conversion varnish provides a very hard, mar-resistant finish. However, abrasion from rough objects moving around on the surface will create scratches.
- Do NOT set hot pizza boxes directly on table as the combination of heat and oils will discolor finish.

Cleaning Guidelines

Generally, a soft damp cloth followed by a dry cloth will be sufficient to clean the finish. If a cleaner is required use mild soap and wipe dry. A high-quality furniture polish may be used occasionally; apply with a soft cloth following manufacturer instructions

About our Finish

All wood finishes used by Barkman Furniture are classified as post-catalyzed conversion varnishes. We chose this kind of finish because it is the most durable finish available for use on fine hardwoods. It will resist moisture and damage from almost all household fluids, foods, and chemicals. Even nail polish remover will not damage it. Unlike a less costly lacquer-based product, which is softer and more susceptible to moisture damage, a catalyzed conversion varnish will provide durable protection for years. It is important to note that ultra-durable catalyzed conversion varnishes require a 30-day curing period after home installation, at a temperature of at least 70 degrees Fahrenheit, to cure completely. Hot or wet objects should not be placed directly on the unprotected finish. Even after the 30-day curing period, a protective hot pad should be used.
